ARLOSOLUTIONS

Where Technology & Simplicity Connect

Arlo Solutions is a Washington, DC based small business offering a full range of cutting-edge and cost-effective Cybersecurity, Program Management, and Intelligence solutions designed to meet the demands of today's dynamic, mission-critical requirements. Arlo was established in 2014 with a vision of modernizing the government agency user experience through emerging technologies and exceptional customer service. Committed to quality, accountability, and trust, Arlo provides a seamless experience from inception through operation.

THE DIFFERENTIATORS

★ FOUNDER-LED, PEOPLE-FOCUSED

Arlo is led by its dedicated founders who prioritize a people-first mindset, putting employees and clients at the forefront. With a full-time Employee Engagement Manager, Arlo fosters a supportive culture that drives client success.

★ TAILORED SOLUTIONS FOR COMPLEX CHALLENGES

Arlo delivers custom solutions designed for ease of execution and client success. For instance, we improved USDA's FISMA audit score by a full letter grade within a year, earning direct praise from their CISO.

★ PROVEN WARFIGHTER EXPERTISE

Arlo's CEO brings decades of warfighter support, from helpdesk technician to cybersecurity strategist. This hands-on experience equips us to navigate high-stakes environments and translate strategic visions into actionable results.

ARLOSOLUTIONS

CONTRACT HIGHLIGHTS

Chief Data and Artificial Intelligence Office | Arlo provides RMF as a Service to support the entire Authorizing Official (AO), seamlessly integrating with existing systems and processes in CDAO's agile authorization ecosystem to provide a more efficient and effective approach to risk management and cybersecurity.

DoW Office of the Principal Cyber Advisor (OPCA) | Our team provides technical expertise and policy oversight, encompassing national security policy challenges, cyber strategy implementation, military cyberspace activities, budgetary oversight, technology performance, cybersecurity, and workforce management, with a focus on delivering analytical products and proactive management.

United States Department of Agriculture (USDA) | Arlo's cybersecurity experts developed and implemented the RMF 2.0 program for the USDA OCIO to bring the agency into compliance with NIST 800-37 rev 2, enhancing FISMA compliance, and streamlining audit processes through innovative, automated, and standardized approaches to risk management, security, and privacy requirements. We currently help the Information Resource Management Center (IRMC) in implementing the USDA IT Strategic Plan to align resources and activities within the USDA IT Community of Practice.

Office of the Under Secretary for War (Intelligence & Security) | We review, analyze, develop, and implement Defense Security policies, guidance, and training, offering expertise and recommendations on oversight of DoW Counterintelligence, Law Enforcement, and Security activities while providing operational insights to senior decision-makers.

National Oceanic and Atmospheric Administration (NOAA) | We support the NOAA Fisheries OCIO Cloud Strategy by developing a multi-year cloud implementation plan, rationalization framework, proof-of-concept solutions, governance structure, and capability assessments to streamline cloud adoption, enhance effectiveness, and align with organizational objectives.
